

You may see better with LASIK services.

Reduce or eliminate the need for glasses or contact lenses.¹

What is LASIK?

LASIK is a laser vision correction procedure that may reduce or eliminate the need to wear glasses or contact lenses.

Is LASIK right for you?

Are you nearsighted, farsighted or do you have astigmatism? If so, LASIK may help you regain your vision through a single, FDA-approved procedure. This procedure reshapes the cornea so that light entering your eye is properly focused onto the retina. Vision is usually corrected immediately following the LASIK procedure.¹

MetLife Vision Insurance with the VSP® Choice network provides access to a discount² on laser vision correction.³

Interested in LASIK?

Ask your VSP Choice doctor if you're a good candidate for surgery.

Or call 1-855-MET-EYE1 (1-855-638-3931) for more information.

Potential savings⁴

Save 15% off the regular price or 5% off a promotional offer for laser surgery, including PRK, LASIK, Custom LASIK, SMILE, Contoura and other FDA-approved laser correction procedures.
